Shipping and Delivery Policy

Version: 1.0 **Effective:** 2026-01-01

IMPORTANT: Synthetic educational policy. Not a real company's terms.

Purpose and scope

This synthetic policy describes standard shipping estimates for fictional Northstar Retail orders.

Dispatch

In-stock orders are normally dispatched within 1–2 business days after payment confirmation. Orders awaiting payment or containing backordered items may take longer.

Delivery estimates

After dispatch, standard domestic delivery is estimated at 3–7 business days. This is an estimate, not a guarantee.

Tracking

A tracking number is made available after the carrier accepts the parcel. If an order is marked shipped but has no tracking number, report that the tracking information is not yet available and do not invent a tracking link.

Delayed shipments

If an order has not arrived after the upper end of its estimated delivery window, collect the order ID and refer the case for carrier investigation. Do not promise a delivery date.
